GOLFERS TEE IT UP WITH SHEDRAIN® IN 2007

~ Hot New Umbrellas Give Golfers the Advantage on the Links ~

PORTLAND, OR – As golfers are planning their spring golf outings, *ShedRain®* – the nation's leading umbrella and raingear manufacturer -- unveils some great new gear that will make a day on the links even more enjoyable. These rain products will keep golfers (and their clubs) dry and protected while trying to shoot the low round of the day. In fact, when armed with *ShedRain®* umbrellas, golfers say, "Bring on the rain, wind and weather...we're ready."

Golfers reach for the following umbrellas from *ShedRain®*:

When facing strong, unpredictable winds...

Executive Vented Golf umbrella – The *WindPro® Vented Auto Golf umbrella* is a serious umbrella when facing windy conditions on the links. The *WindPro®* system resists winds of 72+ mph winds without inversion, making it the top-rated umbrella in the industry. This is the umbrella of choice for executive golfers as it combines elegance with function.

When a little extra grip is required...

Gellas™ Gel-Filled Handle Vented Square WindPro® umbrella – This vented golf umbrella features a patent-pending, gel-filled grip handle, which is ideal for keeping a firm grip while on the course. The vented canopy is designed to resist high winds, and it features a nylon/mesh case with bungee cord-lock closure.

When extra protection is needed...

Club-brella™ – This golf umbrella provides the ultimate protection for clubs during inclement weather conditions. A necessity for serious golfers, the *Club-brella™* protects a golfer's clubs should it rain while on the course. Simply open the *Club-brella™* and insert the shaft into the golf bag. To remove a club, merely tilt the umbrella canopy. Finally, to retrieve a ball just use the end of the *Club-brella™*'s shaft.

Sport Rain Suit – This stylish, unisex rain suit includes a convertible jacket and coordinating pants that fit conveniently over golfers' clothing, providing the ultimate protection from wind and rain. This new suit features a 100 percent waterproof, nylon shell with taped seams and a mesh lining for breath-ability. The jacket also offers removable sleeves, a versatile hood with visor and drawstring cords that fold into the neck lining for quick storage as well as internal and external pockets. The pants provide multiple pockets (security-, internal small items-, back hip zippered- and pass-through pockets) for storage and accessibility to clothing underneath. Colors include black, navy and hunter.

When an all-around great sports umbrella is the ticket...

Windjammer® The Extreme Sport Umbrella – This umbrella's vented square canopy is designed with an aerodynamic, wind-resistant infrastructure that resists strong winds without inversion. The *Extreme Sport* umbrella is available in a square 62-inch arc, has a rubber handle and is offered in a number of sporty colors.
